

Requesting and Installing "Minisap" License Keys

Can I apply my „Minisap“ license keys to appliances available under the Free Trial License Agreement?

No. You can apply the “Minisap” licenses only to appliances available under the Developer License Agreement.

How do I install a 90 days Minisap license key for SAP NetWeaver Application Server ABAP?

1. Logon to *AS ABAP* via *SAP GUI* with user **SAP*** in tenant **000**.
2. Start transaction **SLICENSE**.
3. Get a “Minisap” license at <https://go.support.sap.com/minisap/#/minisap>.
 - As system ID choose the ID listed in the Getting Started Guide for your appliance (this guide is added in the appliance details).
 - As hardware key use the hardware key shown in transaction **SLICENSE**.
4. You will receive an e-mail with the license, and you have to store it.
5. Go back to the transaction **SLICENSE** in your ABAP appliance.
6. Choose *Install new License* and select the license from step 4.
7. After the license installation, call the transaction **SECSTORE** and run a check for all entries using **F8**. This is needed to enable RFC after the change of the installation number from **INITIAL** to **DEMOSYSTEM**.

Installing the Minisap license will change the installation number from **INITIAL** to **DEMOSYSTEM**. The developer access key for user **DEVELOPER** and installation number **DEMOSYSTEM** is already in the system and you can start developing in the customer name range (Z*, Y*).

Note that the Minisap license has an expiration period and after it you can renew it with the same procedure.

How do I install a 90 days Minisap license key for SAP HANA?

Start the installed *SAP HANA Studio* and open the *HANA Development perspective*.

2. From the *Systems* view right-click on your SAP HANA system connection.
3. Select *Properties* and then the *License* tab.
4. Get a “Minisap” license at <https://go.support.sap.com/minisap/#/minisap>.
 - As system ID choose the ID listed in the Getting Started Guide for your appliance (this guide is added in the appliance details).
 - As hardware key use the hardware key shown on the *License* tab.
5. Once you received the license key file, first choose *Delete License Key* and then *Install License Key*.

Where do I install the SAP HANA Studio Developer Edition from?

Open [SAP HANA Tools](#) and follow the described procedure.
