Requesting and Installing Product License Keys for SAP Appliance Templates

CONTENTS

Can I apply my own license keys to appliance templates available under the Free Trial License Agreement or the Developer License Agreement?

No, you cannot apply your own license to appliance templates, available under the Free Trial License Agreement or the Developer License Agreement, until the trial period is not expired.

You can apply your own licenses ONLY to appliance templates available under the SAP Product License Agreement and the trial period is expired. The prerequisites are that you own the required SAP Product licenses and that you purchase the SAP Cloud Appliance Library subscription package. For more information, see Unlocking Appliance Templates .

I just created a new appliance. How do I get its license keys?

Obtain a license key through the License Key application on the Support Portal. Please find the detailed step-by-step guides on the License key starting page 'How to request license keys'.

For more information about the license keys, see this video.

How do I install an SAP HANA license key via SAP HANA Studio?

1. Open the *SAP HANA studio*.
2. Navigate to the properties page of the database for which you have requested the license key.
3. On the properties page, choose the button for installing the license key.
For more information, see this SAP Note 1644792 .

How do I download the SAP HANA Studio?

1. Open SAP Software Download Center in the Support Portal: https://support.sap.com/en/my-support/software-downloads.html

2. Choose *Support Packages and Patches* , choose *A – Z* (Alphabetical List of my Products) *-> H -> SAP HANA PLATFORM EDITION -> SAP HANA PLATFORM EDIT. 1.0 -> Entry by Component -> HANA studio.*
